

UNH Retirement and 403(b) Savings Plan, #08253

Invest in your retirement—and yourself—today, with help from the UNH Retirement and 403(b) Savings Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

Your employer offers outstanding convenience and a variety of investment options. Take a look and see what a difference enrolling in the plan could make in achieving your goals.

Benefit from:

Convenience. Your contributions are automatically deducted regularly from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your plan offers you the option of having experienced professionals manage your account for you.

Automatic annual increases. Save a little more each year, the easy way — the Annual Increase Program automatically increases your contribution each year.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional "catch-up" contribution of \$7,500 in 2023.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time.

If you have not enrolled in the Plan within 30 days from your date of hire, you will be automatically enrolled in the Plan at a contribution rate of 6% of your pretax eligible earnings.

Based on your date of birth and assuming a retirement age of 65, you will be invested in the T. Rowe Price Retirement Fund, with a corresponding target retirement date. Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

We encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within the first 30 days of your employment. You may change your contribution rate at any time online, or by calling the Fidelity Representatives at 1-800-343-0860.

How do I enroll in the Plan?

the Annual Increase Program. Based on plan rules, the maximum annual increase is 3%. Sign up online by accessing the "Contribution Amount" section on NetBenefits®, or by calling the Fidelity Representatives at 1-800-343-0860.

What is the IRS contribution limit?

The IRS contribution limit for 2023 is \$22,500.

When is my enrollment effective?

Does the Employer contribute to my account?

The University contributes 9% of base pay to eligible employees who contribute a minimum of 6%.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. What "catch-up" contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS pretax contribution, you may make an additional "catch-up" contribution each pay period. The maximum annual catch-up contribution is \$7,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

When am I vested?

You are always 100% vested in your own contributions to the UNH Retirement and 403(b) Savings Plan, as well as 100% vested in the University of New Haven's contribution to your plan.

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your account for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Representatives at 1-800-343-0860.

Can I make withdrawals?

Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, become permanently disabled, have severe financial hardship, as defined by your plan.

When you leave the University of New Haven, you can withdraw contributions and any associated earnings or, if your vested account balance is greater than \$5,000, you can leave contributions and any associated earnings in the Plan. After you leave the University of New

Haven, if your vested account balance is equal to or less than \$1,000, it will automatically be distributed to you. However, if your vested account balance is greater than \$1,000 but not more than \$5,000, you will be notified that your entire vested account balance will be transferred to an Individual Retirement Account (Rollover IRA), unless you request either a cash distribution or a rollover distribution of your choice.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 02/29/2020. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. Principal® Guaranteed Interest Balance Contract

VRS Code: 819224

Fund Objective: To provide a high quality investment option with earnings stability and liquidity based on a guarantee of principal and interest credited.

Fund Strategy: The Principal® Guaranteed Interest Balance Contract is backed by the full faith and credit worthiness of Principal Life Insurance Company. The general account is often used as one indication of the financial strength of a company. The general account of Principal is a diversified portfolio consisting primarily of investment grade public and private securities, high quality commercial and residential mortgages and U.S. agency securities.

Fund Risk: The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Metropolitan West Total Return Bond Fund Class I

VRS Code: 844384

Fund Objective: The investment seeks to maximize long-term total return.

Fund Strategy: The fund pursues its objective by investing, under normal circumstances, at least 80% of its net assets in investment grade fixed income securities or unrated securities determined by the Adviser to be of comparable quality. The fund also invests at least 80% of its net assets plus borrowings for investment purposes in fixed income securities it regards as bonds.

Cohen & Steers Realty Shares Fund Class L

VRS Code: 893727

Fund Objective: The investment seeks total return through investment in real estate securities.

Fund Strategy: Under normal market conditions, the fund invests at least 80% of its total assets in common stocks and other equity securities issued by real estate companies. It may invest up to 20% of its total assets in securities of foreign issuers which meet the same criteria for investment as domestic companies, including investments in such companies in the form of American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs") and European Depositary Receipts ("EDRs"). The fund is non-diversified.

Fund Risk: Real Estate is a cyclical industry that is sensitive to interest rates, economic conditions (both nationally and locally), property tax rates, and other factors. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Sector funds can be more volatile because of their narrow concentration in a specific industry. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.
