New Haven

## Add an Assignment using an External App, such as Turnitin

In Course Navigation, click the **Assignments** link.

Click the **Add Assignment** button.

In the **Submission Type** drop-down menu, select the **External Tool** option.

Click the **Find** button [1] or enter the External Tool URL in the URL field [2].

Click the name of the LTI tool and click the **Select** button. Depending on the tool type, you may be taken to a separate screen for further configuration.

To load the assignment in a new tab, click the **Load This Tool In A New Tab** checkbox.

Note: If you enabled the Load in a new tab checkbox when configuring the external tool, the Load this Tool In A New Tab checkbox will already be selected.

If you are ready to publish your assignment, click the **Save & Publish** button [1]. If you want to create a draft of your assignment and publish it later, click the **Save** button [2].
